Building Report December 2018 BOE Meeting

MTSS Progress:

The assessment window for the Fastbridge winter benchmark screening is November 28-December 14. Students will complete screeners in both reading and math. Teachers will also complete the SAEBRS behavioral screener for their homeroom students. Screening data in all areas will be reviewed by staff members during the December 19th building inservice.

5th Grade Robotics Program: SES fifth graders were recently invited to participate in an after school robotics competition with Dash and Dot robots. Meeting for four Tuesdays with district tech integrationist Lisa Suhr and MTSS coordinator Katie Heiman, the nine students who signed up work to write computer programs using the Blockly programming language on their iPads which then get sent via Bluetooth to the robot to accomplish 5 "missions" provided by the competition organizers. Students get experience with teamwork, perseverance, and creative problem solving in addition to a fun introduction to coding. If you're interested in seeing the kids and robots in action, contact Lisa Suhr to arrange for a visit on any Tuesday before Christmas from 3:30 - 5:00 pm.

3rd Grade Music Performance: On November 13, our 3rd graders performed at the Buzz Café for the Christian Women's November meeting. They performed some songs that were included in their Veteran's Day program.

November Site Council Meeting: The SES site council met on November 13, at 6:00 pm in the SES library. Click [here](#) for minutes to this meeting.

Sabetha PTO Luncheon: In honor of Para Educator Appreciation Week, Sabetha PTO provided a soup luncheon for all Sabetha schools on Friday, November 30. Delicious soups, sides and deserts were provided to the entire staff. This was greatly appreciated by all. The Sabetha PTO provides an immense amount of support for the entire Sabetha educational community and their dedication and hard work is greatly appreciated.
